This family enduro will be easy compared to most in the series for two reasons. One, we want to come in, have our event and leave with the least impact. We want to set a standard that will allow us to improve and increase this event in the coming years. Two, we expect many new riders from the area that have never been in any organized event. We don't want to give them a bad taste and each year will be more challenging. If this disappoints anyone I'm sorry but it's necessary. Also, **the noise factor will be enforced.** You have heard this before, but this issue is serious. Noise loses land and you have been warned. Many people that don't ride would just as soon have something to complain about and we aren't going to give them anything, nor are we going to get a bad reputation. **Anyone who thinks they need the extra power from an open exhaust in a family ride will be disqualified .**
